LOW PULP CONCENTRATED ORANGE JUICE - 60° BRIX

Description

Product No. 158, Low Pulp Concentrated Orange Juice 60° Brix, is a special concentrate manufactured from selected Valencia and Navel sweet oranges. It has been centrifuged prior to concentration to provide a reduced level of fine pulp. To make single strength orange juice, add 5.25 gallons of water to one gallon of concentrate.

Ingredients

Concentrated Orange Juice
